

Metrology Expertise You Can Rely On

Attained exceptional results
in METTLER TOLEDO
Global Mass Calibration
Proficiency Test

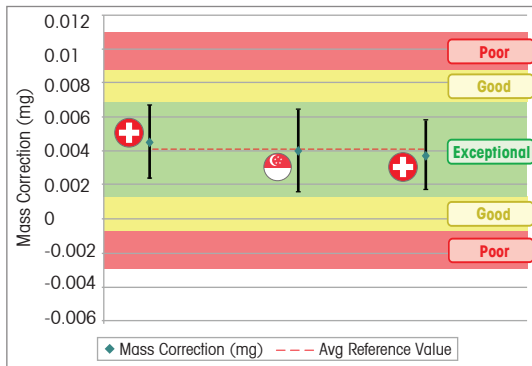

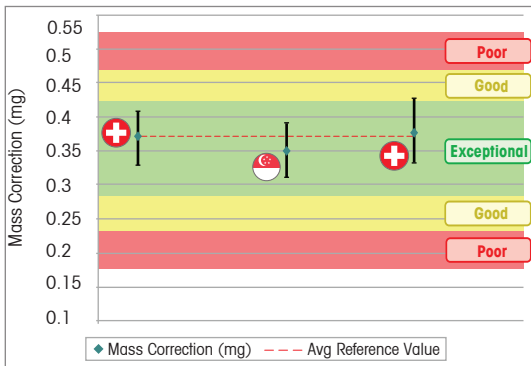

With 7 other METTLER TOLEDO Labs

170g (Non-standard Weight)

200mg (Standard Weight)

- State of art mass comparators ensure highest accuracy
- E1 reference standard (highest class) used in weight calibration
- Seamless weight calibration process to ensure traceability
- Worry-free and 100% OIML compliance calibration report with "Pass/Fail" result
